

PAUL ATTRAX

Grown up on Germany's largest island, Ruegen, Paul got enthusiastic about music very early. Over the course of the last years he consecrated to lots of different music styles and played at some of the best clubs throughout the country. Music wise he constantly developed – the beats became faster and Clubsounds with driving Housebeats now dominating his sets.

With his first Solo Single “Be Love” he called attention to himself in the year 2007. This track made it directly to the playlist of several radio stations such as “Sunshine Live” and “Fantasy Dance FM” in Germany And also climbed the Dance Charts right away. Releasing on the same Label in Germany, it was only a matter of time when he got the chance of remixing the fabulous House Bomb of Ian Carey. “Keep On Rising” – remixed by Paul Attrax got attention all over the world. Amazing feedbacks from New York or Australia showed that his style works global wise!

Artists like Jaques Raupe, Niels van Gogh, Sunloverz or even Sam Grade did work on remixes for his productions.

Paul shows once more how he defines Music. Now one can be anxious to what new accents will be set – worldwide
